PET-CARE BRANDING OPTIONS

From thin, low-SAP pads to premium cushioned absorbency, **NIMBUS** can manufacture pad formats around your market, channel and price point.

5 LAYER TECHNOLOGY

Engineered with five performance layers that work together to deliver **superior absorbency, rapid drying, and leak-proof protection** for every need.

SMART DESIGN. MAXIMUM PROTECTION.

Each layer is thoughtfully designed to lock in moisture, keep surfaces dry, and provide lasting comfort for people and pets.

SUPER ABSORBENT

Absorbs up to 6 cups of liquid for maximum protection.

QUICK-DRYING

Advanced technology dries the surface fast for a cleaner feel.

LEAK-PROOF

5-layer protection keeps your floors safe and dry.

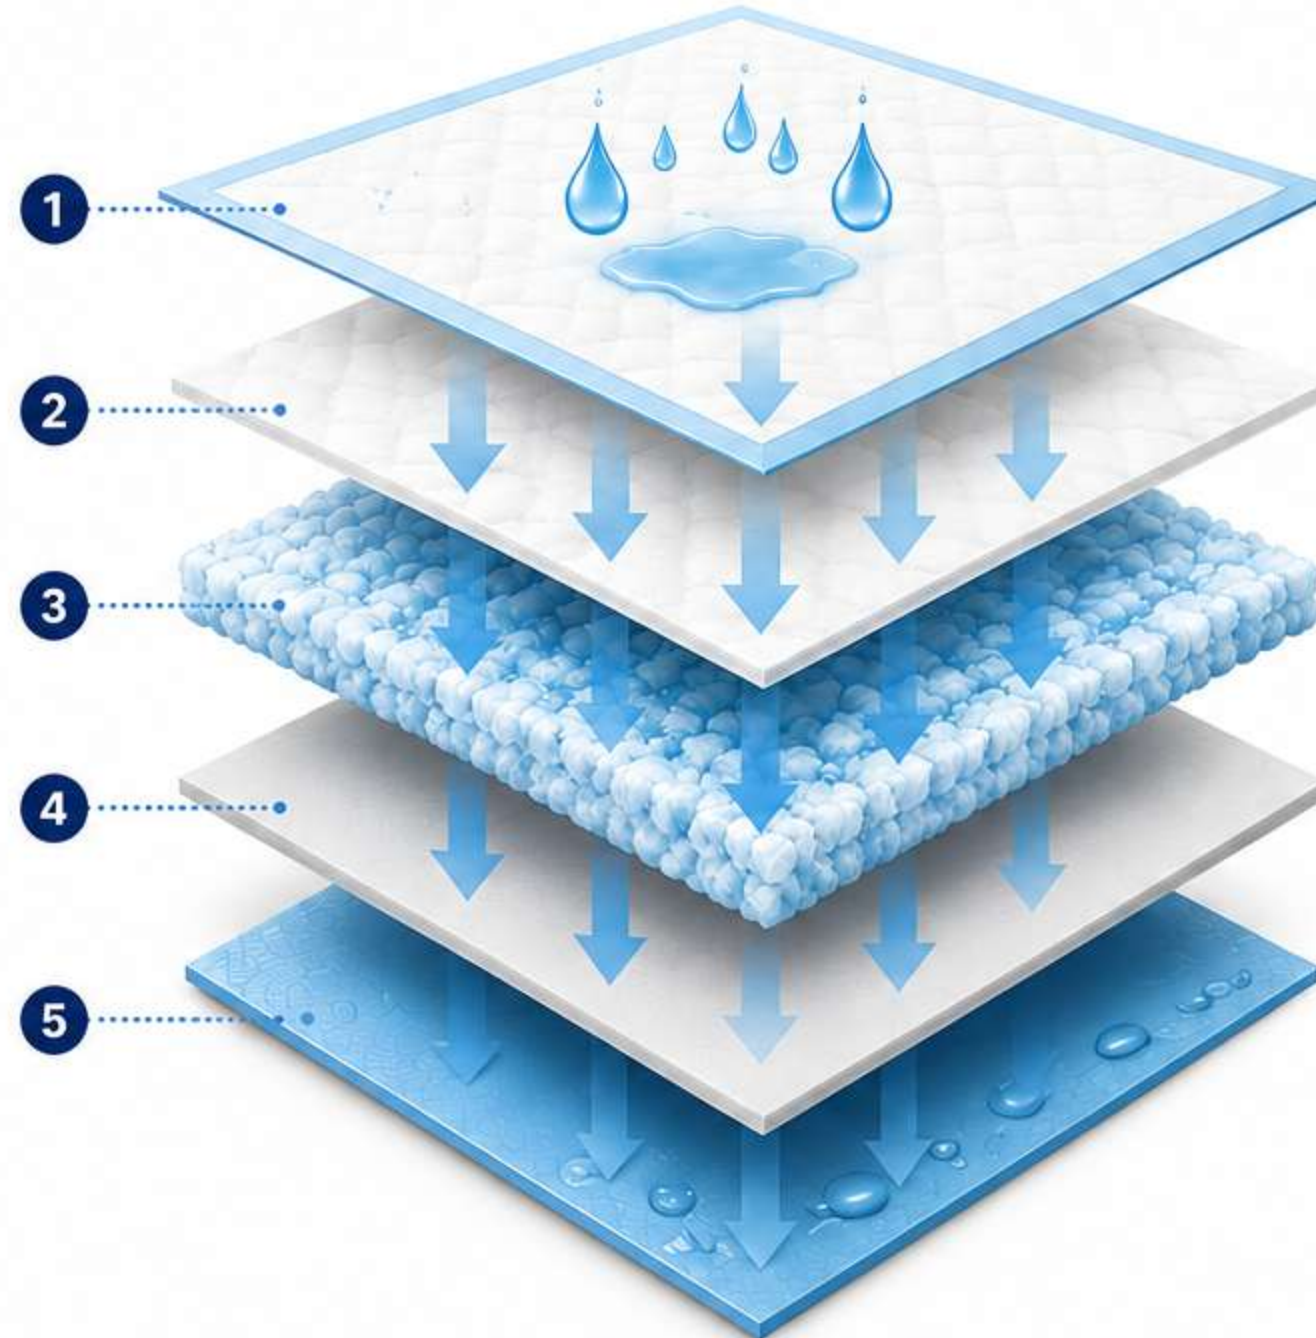

ODOR CONTROL

Helps neutralize unpleasant odours for a fresher home.

COMFORTABLE & SAFE

Gentle on paws and skin, perfect for daily use.

1 BREATHABLE TOP LAYER

Soft & breathable quilted surface allows liquid to pass through quickly while keeping the surface dry and comfortable.

2 TISSUE LAYER

Quickly channels liquid to the absorbent core for faster absorption and a drier surface.

3 FLUFF PULP LAYER

High-absorbency fluff pulp locks in large volumes of liquid, turning it into gel instantly.

4 TISSUE LAYER

Helps evenly distribute and lock in moisture, preventing backflow and keeping paws and floors dry.

5 PE FILM BACKING

Leak-proof backing keeps liquid from seeping through, protecting your floors and surfaces.

QUALITY & COMPLIANCE

QUALITY BUILT INTO EVERY STAGE

At NIMBUS, quality isn't just tested at the end—it's engineered into every step of our process. Our integrated quality management system ensures safety, performance and consistency from raw material to final shipment.

1

RAW MATERIALS

We source high-quality materials from trusted global suppliers.

2

INCOMING QC

Every batch is inspected and tested to ensure it meets our strict standards.

3

PRODUCTION

Advanced automated production with real-time monitoring and controls.

4

LABORATORY TESTING

In-house laboratory testing verifies performance, absorbency and safety.

5

FINAL INSPECTION

Every finished product undergoes a final quality inspection before packing.

6

SHIPMENT

Products are securely packed and shipped worldwide, on time.

BUILT FOR EASY BUSINESS

Manufacturing is only part of the partnership.

Our English-speaking commercial team works closely with customers from product design and development through production and shipment.

ENGLISH-SPEAKING COMMERCIAL TEAM

Clear, professional communication throughout every stage of our partnership.

FAST RESPONSE TIMES

Dedicated account managers respond quickly to enquiries and keep things moving forward.

INTERNATIONAL EXPERIENCE

Supporting customers across ASEAN, Australia, Europe and North America with confidence.

KEY MILESTONE UPDATES

We keep you informed with timely updates at every key stage — from sampling and testing to production and shipment.

DESIGN & MANUFACTURING COLLABORATION

Work closely with our technical and design teams to develop products that meet your market and quality standards.

WHATSAPP, EMAIL & TEAMS COMMUNICATION

Communicate through the platform that suits you best, whenever you need us.

**A RESPONSIVE MANUFACTURING PARTNER
IS JUST AS IMPORTANT AS A RELIABLE MANUFACTURING PROCESS.**

We make international manufacturing straightforward.

STRATEGICALLY POSITIONED

A STRATEGIC MANUFACTURING HUB

Located in Malaysia and just 20 minutes from Port Klang, NIMBUS provides efficient access to ASEAN, Australia, Europe, North America and the Middle East through one of Southeast Asia's most established export gateways.

MALAYSIAN MANUFACTURING PLATFORM

Modern facilities, skilled workforce and international quality standards.

20 MINUTES FROM PORT KLANG

Quick and efficient access to one of Southeast Asia's busiest ports.

STRATEGIC ASEAN LOCATION

At the heart of Asia, enabling short lead times and lower logistics costs.

EXPORT EXPERIENCE ACROSS MULTIPLE REGIONS

Proven track record shipping to global markets with complex requirements.

ALTERNATIVE TO TRADITIONAL SUPPLY CHAINS

Reliable, flexible and cost-competitive manufacturing solution.

From First Conversation To First Container

A proven, transparent process that takes you from concept to delivery —
with quality, reliability and partnership at every step.

PHASE 1

DESIGN & VALIDATE

We start by understanding your needs and creating the right solution.

01 Discovery Call

We learn about your market, customers, channels and product requirements.

02 Product Strategy

Choose from proven NIMBUS platforms or develop a customised specification.

03 Sampling & Validation

Receive samples for evaluation, testing and market validation.

PHASE 2

BUILD & MANUFACTURE

We plan, prepare and manufacture to the highest standards.

04 Packaging & Branding

Packaging, artwork, carton configuration and retail presentation around your brand.

05 Production Planning

Volume forecasting, raw material allocation and production scheduling.

06 Manufacturing

Manufactured under documented quality systems and international standards.

PHASE 3

DELIVER & SCALE

We deliver on time and grow with your business for the long term.

07 Export & Delivery

Container loading, export documentation and shipment management from Port Klang.

08 Market Expansion

New products, new markets and flexible solutions to support your growth.

09 Long-Term Growth

Building lasting partnerships with innovation, reliability and continuous improvement.

QUALITY ASSURED
International standards and strict quality control.

TRUSTED PARTNER
Long-term relationships built on transparency and performance.

CUSTOMER FOCUSED
Solutions tailored to your market and your customers.

GROW TOGETHER
We succeed when you succeed.
